

KORANET

Korean scientific cooperation network with the European Research Area

Pre-Announcement of the Joint Call on Green Technologies

The KORANET Joint Call on Research for Green Technologies will be open for **proposal submission from 6 February to 6 April 2012.**

The **Call Text, the Guidelines for Applicants and the webtool** for the online submission of proposals will shortly be available at: www.koranet.eu.

The KORANET Joint Call (JC) on Green Technologies will be open for the **submission of proposals from 6 February to 6 April 2012.**

The KORANET JC aims at bringing together European and Korean researchers and scientists to do joint research on the topic of Green Technologies. This theme aims at fostering green growth including environmental sustainability as well as industrial growth. The broadness of the proposed area and its implications for the climatic challenges of today's world are expected to encourage an important number of proposals, ensuring optimum synergies and networking options.

The **three main research areas** of the KORANET Joint Call will be:

- **Reduction of carbon footprint**
- **Technologies for a sustainable development**
- **Renewable energies and energy efficiency**

The KORANET Joint Call will mainly fund **'Mobility'** (travel and accommodation costs, costs for organising small events, small-scale research equipment). The projects' duration may be **2 years maximum.**

Project consortia must consist of **at least 3 partners, one Korean partner and two European partners from two different European countries participating in the KORANET Joint Call (Austria, Germany, Poland, Slovakia, Sweden, Switzerland and Turkey)** or from other countries if they secure their own funding from other sources.

A **maximum of 25.000 €** in funding is available for **each partner country per project.** In case two project partners of a proposal are from the same country, they may together request up to a maximum of 25.000 €.

The **overall budget** of the KORANET Joint Call is **2.108.000 €** in a **virtual common pot.**

More general information on the KORANET Joint Call is also available from the **KORANET JC Secretariat** (celine.timmermans@cnrs-dir.fr).

The **KORANET JC National Contact Points** in each of the eight participating countries will give further information on the national requirements for participation:

AUSTRIA

What is KORANET?

The KORANET project is an ERANET funded by the European Commission under the 7th Framework Programme for Research and Technological Development (FP7) from 2009 to 2012. The aim of KORANET is to strengthen the research partnership between Europe and Korea. For more information check out the **KORANET project website** (www.koranet.eu) and register for our **newsletter** (koranet@dlr.de).
